CONGRATULATIONS CLASS OF 2023

Over the last four years, you have demonstrated that you are resilient, goal-oriented, and hard-working. You have been vocal about the things you care about and have contributed to a school community that is more inclusive and compassionate. You embody our core values and represent the very best of who we are.

As you cross the stage and join the ranks of thousands of Southeastern graduates who have gone before you, I wish you success and happiness. I am confident that you will move forward with direction and purpose to become vital parts of our local economy and productive citizens of our Commonwealth, nation, and globe.

Sincerely,
Holly McClanan
Superintendent

Dear Class of 2023,

When I think about the Class of 2023, adaptability, consideration, determination, and leadership are the characteristics that come to mind. The Class of 2023 have demonstrated these qualities, time and time again.

Throughout your high school journey, you have navigated through trials and tribulations as they played out all over the world. You learned how to ADAPT through virtual learning, continued to keep close to your classmates, and made the best out of a difficult situation. You showed passion and CONSIDERATION for injustices in the world, and took an oath to stand up for what you believed in. You were determined not to sit back and watch; instead you brought solutions to the table and offered to be part of the solution. The Class of 2023 made Southeastern history by being DETERMINED to smash records by having over 200 students taking advantage of co-op opportunities before the end of the first semester! Finally, the class of 2023 brought their LEADERSHIP through their involvement in school activities, mentoring underclassmen, showing sportsmanship through difficult seasons, all while banding together to cope with the loss of a classmate.

My one last request is that you never lose your fire! No matter what the next chapter of your life brings, remember to continue to adapt, be considerate, stay determined, and be the leaders that you have already proven yourselves to be.

I will always be proud to say I was your Principal.

With Love,
Mrs. Weckesser

the longest reign

Thousands of mourners line the Long Walk to watch the coffin of Queen Elizabeth II as it arrives at Windsor Castle. Britain's longest-reigning monarch died Sept. 8 at the age of 96 after 70 years on the throne. BYE, BYE BIRDIE

A phone displays the Twitter account of billionaire Elon Musk and his tweets from Nov. 15. He was already the CEO of Tesla and SpaceX when he became sole owner of Twitter for \$44 billion, and plunging stocks caused him to lose his rank as the world's richest man. Upon taking over the social media platform, Musk made a series of controversial decisions, including mass layoffs, implementation and then de-implementation of the Twitter Blue account verification program, and asking remaining employees to commit to working "long hours at high intensity" or leave the company. PAY UP

Protesters rally outside the Department of Education, calling on President Joe Biden to abolish all student loan debt. Their demands were partially answered in August, when Biden signed an executive order forgiving up to \$20,000 of debt for millions of Americans. The legislation was quickly challenged in court, with opponents claiming the president didn't have the authority to carry out the order. Photo credit: Newscom

WNBA star Brittney Griner steps onto American soil for the first time in 10 months. The two-time Olympic gold medalist was detained on drug charges when she flew to Russia to play in the off-season. Despite international calls for her release, Griner was convicted and sent to a penal colony to serve her nine-year sentence, but returned to the U.S. in December as part of a prisoner swap with Russia. ELECTION YEAR

The makeup of the U.S. Senate and House of Representatives changes following the Nov. 8 election. Control of the House flipped to Republicans and the Senate remained in the hands of Democrats. The vote for Speaker of the House was notable because it took four days and 15 rounds of voting to elect Kevin McCarthy, the most rounds since 1859 and the first time since 1923 it took more than one vote.

siren song

Max Mayfield, portrayed by actor Sadie Smith, looks for the source of a paranormal sound in season four of the hit Netflix show "Stranger Things." The show was so influential that the character's favorite song – which plays an important role in the season's plot – jumped to number one in the music charts. What made this remarkable was that "Running Up that Hill" by Kate Bush was released in 1985 but did not hit the number one spot until after being featured on "Stranger Things" 36 years later. BILL OF HEALTH

Buffalo Bills quarterback Josh Allen and offensive tackle Ryan Bates watch as emergency medical personnel tend to teammate Damar Hamlin. The 24-year-old safety suffered a cardiac arrest and collapsed on the field during the Jan. 2 game against the Cincinnati Bengals. Fans showed their support by donating to a GoFundMe Hamlin had previously created to buy toys for needy kids, donating \$8.6 million while he recovered in the hospital. Photo credits: Newscom

IMPORTANCE OF CPR

Following the on-field collapse of Damar Hamlin, the American Heart Association reported a 620% increase in page views on its CPR pages. According to the CDC, follow the below steps if you see someone in cardiac arrest:

1. Call 911 Right Away
2. Give CPR. Push down hard and fast in the center of the chest at a rate of 100 to 120 pushes a minute. Let the chest come back up to its normal position after each push. The American Heart Association (AHA) recommends timing your pushes to the beat of the song "Stayin' Alive."
3. Continue giving CPR until medical professionals arrive or until a person with formal CPR training can take over.

OH-ZONE SHE DID IT

NASA finds continued improvement of the ozone layer over Antarctica. The U.N. announced that the ozone — a thin layer of gas that protects the earth from radiation — was on track to recover within about four decades. This success was attributed to the Montreal Protocol, which was adopted in 1987 and phased out the use of ozone-depleting chemicals like chlorofluorocarbons that had previously been widely used in aerosol cans and as refrigerants.
